

POCOLPEN WATERFALL

This route is located in the commune of Curarrehue about 45 minutes from Pucón. We will start the tour with the transfer of passengers and Guides to the starting point, where we will put on the all necessary equipment. After a technical security talk we will walk up to the beginning of the first waterfall of approximately 7 meters, where you will have the option to go down in rappelling or jumping into the water. Always the first to descend will be one of our Guides, who will have the role of receiving them when you get down and take pictures which will be share at the end of the tour.

Due to the geography of the place, we will have the option to go down different lines, which will be decisions that will be made at the moment according to passenger behavior and skills.

The largest waterfall of the route has 18 meters, then another 14 and the last of 15 meters where we will fall in free fall to the water to finish the activity.

It should be noted that this route is totally aquatic where you need to know how to swim and have an adventurous spirit. After descending the 4 waterfalls of the tour, we will end up in the facilities of Pocolpen Park where our staff will have prepared a snack from de season.

Finally, we will all return to Pucón to drop off our passengers at our agency, located in Lincoyán 361.
